<input type="checkbox"/> Investment held to Maturity:	11,433,456,350
<input type="checkbox"/> Investment Available for Sale	920,101,860.00

3. Risk Management Function**i. Strategies and Policies**

Risk management strategies and policies are paramount to mitigating risks that are faced by banks. In addition to maintaining adequate capital, the responsibility of the bank also lies in maintaining a balance between risk and return. Therefore, effective risk management is a must for sustainability of banks. Apart from the business credit department, a separate credit risk department has been formulated, and senior level staff has been handed the responsibility of ensuring that the risk management guidelines are properly placed and executed. Regarding operation risk, operation risk management policy has been formulated and effective channels are being formed to ensure that the policies are thoroughly followed. The Asset Liability Committee looks after the market risk and meetings are held periodically to ensure that the bank takes proper decisions based on the market situations

ii. The Structure and Organization of the Relevant Risk Management Function

A senior level staff has been appointed who is responsible to ensure that the credit risk are identified and mitigated. In operation, AML/CFT unit has been created and an experienced senior level manager has been appointed as compliance officer, who also looks after the operation risk. Customization is under process to develop sytem/software to ensure AML/CFT and other operation risks are identified and necessary actions taken. The ALCO looks after the market risk. The Asset Liability committee has members from different department and therefore identification of risk and mitigating actions are decided right promptly. Apart from this, risk management committee, consisting of board members dully considers the situations and issues of risks faced by bank and further provide directions to reduce and mitigate risks.

iii. The Scope and Nature of Risk Reporting and / or Measurement Systems

The risk identified from credit, operation and market risk department are further discussed in management meetings, ALCO meetings and are placed before the risk management committee. The internal audit department also reviews the risk at every level and reports to the audit committee. Recently, whistle blowing policy has also been formulated to ensure that the risk are timely identified and mitigated.
